VOLUME VII, NUMBER 17.

LA CROSSE, WISCONSIN, FRIDAY, JUNE 3, 1910.

PRICE TWO CENTS.

WARNING TO LA CROSSE COUNTY PROGRESSIVE REPUBLICANS

The Stephenson-Aldrich standpat faction in the republican party have sent the following letter to about 500 La Crosse county republicans:

"La Crosse, Wis., May 31, '10.
"Dear Sir:—
"You are invited to attend a conference of republicans to be held at the court house in the city of La Crosse, Saturday June 4, 1910, at 2:00 p. m., at which meeting delegates will be selected to attend a republican conference to be held at the Auditorium in Milwaukee on June 8, 1910, at 12 o'clock noon of said day.
"If you are interested in sustaining President Taft in carrying out the pledge of the republican party as contained in the last republican national platform, DO NOT FAIL TO ATTEND THIS MEETING.
"Yours truly,
"B. C. SMITH,
"Chairman."

The men who sent out this invitation are the men who participated, actively or passively, in the Stephenson campaign in which that person spent \$3,000 in a futile effort to carry La Crosse county. They are the defenders of Aldrich tariff revision upward; they are the foes of Pinchot and the apologists for Ballinger; they represent the local special interests as distinguished from the general public. They are trying to hide these facts under the mask of a party name, and to trick progressive republicans into affiliating with them in the effort to defeat the re-election of Senator La Follette.

If you are a progressive republican, have nothing to do with this so-called convention. Read a fuller expose of their scheme in column 1, page 3 of this issue.

FIGHT RAIL BILL IN THE CONFERENCE \$500,000 USED ON 150 ILL. MEMBERS

Differences in Senate and House Bills will be Material for War of Factions

WASHINGTON, D. C., June 3.—There are differences enough between the senate and house railroad bills to afford a fighting field for the conference committee that will try to arrange a compromise. Every conflicting point will have the backing of a majority in either the senate or house. Threats are plentiful enough as aggressive statesmen declare that if the sections they fought for are removed from the bill, the conference report will not be adopted. Such threats are often made, but rarely fulfilled.

When Senator Aldrich and Representative Mann clash in the conference committee the ensuing scene will be calculated to thrill the other members of the committee.

In the matter of the commerce court, the senate says that the five judges shall be selected by the chief justice of the supreme court while the house insists that all the judges of the court shall have a hand in that task. The senate also has some wrinkle in the way of procedure and court authority that do not appear in the house measure.

In the house bill it is provided that the interstate commerce commission shall have authority to make a valuation of the property of the railroads. Two attempts have been made in the senate to adopt such a provision and each has been beaten by two votes. Another effort for its adoption was expected to be made today just before the final vote is taken in the senate.

There are many recently adopted features in the senate bill that do not appear in the house measure. Most important is the Overman amendment which provides that the operation of a state law cannot, as at present, be suspended by the single United States district judge. An injunction having that effect can be issued only by three federal judges, one of whom must be a justice of the United States supreme court or a circuit judge.

TAFT ROASTS THE INSURGENT PRESS

ADA, O., June 3.—Muckrakers, unscrupulous lawyers, socialism and modern newspapers were "roasted" by President Taft today when he told the graduating class of Ohio Northern college of the conditions they will have to face in the business, professional and political world, the remarks anent journalism being apparently aimed at the insurgent magazines and newspapers that have criticised his administration. On this subject he said: "If the standards set by some of the most successful newspapers in the lack of truth, in coarseness and unfairness of criticism, shall not improve in the next generation, it will vindicate the pessimists of today. I refer to a class of newspapers and of magazines that are properly criticised as muckrakers, that rely for their circulation on the vicious and unfounded attacks upon the honesty and upright character and patriotic motives of men in public life and upon those conspicuous and prominent in society."

FOLK'S BOOM IS AFLOAT TODAY

ST. LOUIS, Mo., June 3.—Former Governor Joseph W. Folk's presidential boom is afloat today, having been successfully launched at the banquet of the Missouri democrat league last night.

A telegram from Champ Clark saying that he was a candidate for congress and the speakership, and that no one had been authorized to use his name in connection with the presidential nomination was read and received with great enthusiasm.

Folk made an address and characterized the protective tariff as "legal graft."

This Is Today's Indication in the Lorimer Bribery Case at Springfield, Ill.

SPRINGFIELD, Ill., June 3.—Six members of the general assembly were in St. Louis when Representative H. J. C. Beckemeyer received \$900 as his share of legislative "jack pot" and some of them were not mentioned by Representative Charles A. White in his original confession.

A legislative "jack pot" was used to influence legislation in the forty-fifth general assembly as well as in the forty-sixth general assembly which is now under investigation.

The one member of the committee on fish and game who held out money contributed for the entire committee is known and will be called here.

Full details of the manner in which the fund for the defeat of the fish bill was collected now in the hands of the jury will bring about indictments of bribe givers and bribe takers.

These are the principal features gained by the Sangamon county grand jury from the testimony this morning from Representative Beckemeyer, State Fish Warden Nat Cohen of Urbana and Deputy Fish Warden Elmer E. Caldwell of Havana.

Estimates made this morning on the amount of money that went into the jack pot and the extent of its influence as revealed by Beckemeyer's testimony and the testimony of Senator Holstlaw last week, indicate that at least \$500,000 was in the fund and probably 150 members of the general assembly were tainted.

When Teddy Jr. appears at the altar on June 29 he will be garbed in a long flowing cutaway coat with the wide braiding, flaring tails and fashionable trimmings made mandatory by London's smart set.

A white waistcoat and grey striped trousers will complete the sartorial ensemble. The wedding outfit is being manufactured by a Broadway concern.

FEAR TERRIBLE CHINESE UPRISING

LONDON, June 3.—Missionary societies with branches in China and business houses that trade in China unite today in the opinion that the warning sent yesterday to the foreign legations in Peking by Chinese revolutionists of an impending anti-dynasty uprising presents a serious danger to foreigners throughout China. Unless drastic action is taken immediately, the Boxer uprising of a few years ago will be repeated on a far larger scale, is the opinion of students of Chinese affairs.

PROMISE SENSATIONS IN KOHLER TRIAL

CLEVELAND, Ohio, June 3.—Attorneys for the prosecution in the civil service trial of Chief of Police Fred Kohler, charged with drunkenness, immorality and official misconduct, promised sensational developments this afternoon when the third session was resumed.

Mrs. James F. Matlock testified that Kohler was intoxicated and used improper language within hearing of himself and wife during dinner in a Chinese restaurant.

BIG CELEBRATION 4TH AT ONALASKA

Agricultural College and Townspeople to Join in Giving a Record Observance

The County Agricultural school and the city of Onalaska will unite in holding a Fourth of July celebration.

The celebration will be held upon the ample and attractive grounds of the Agricultural college. Prof. Johnson, principal, having undertaken the direction of the enterprise. Not only has he assumed the difficulties of that task, but he has undertaken that in case of a financial deficit he will bear the loss, while if profits are made they will go to the College Athletic association.

When interviewed this morning Prof. Johnson said that he and his associates had waited until it was certain that La Crosse would not have a celebration and that there would be none of importance in this locality. They then decided to go ahead and make the celebration the biggest event of the sort in this part of the state.

Two speakers from outside the city, probably men of note, will be secured to deliver addresses. The selection have not been made.

Among the attractions will be a baseball game between fast teams and the usual athletic sports, and at least one excellent band will be secured. Further details will be given out later.

The celebration will partake of the nature of a reunion of the students attending the institution the past year.

RICH WIDOW FLEES TO "BLACK MAMMIE"

CHICAGO, June 3.—Mrs. Corinne Sims, 30 years old, of Rollingford, Miss., a wealthy widow who has been missing from her home since April 27 and was believed to be dead, was found in a colored boarding house today by the police. Mrs. Sims has been suffering from nervous prostration.

Mrs. Sims said that the reason she was at the colored boarding house was that the proprietress was a former servant at her home and she knew no one else in Chicago.

ROSEBUD WINS THE OAKS STAKES

EPSOM DOWNS, England, June 3.—The Oaks stakes, worth nearly \$20,000, was won today by Sir Wm. Bass' Rosebud. J. M. Usker's Evolution was second and Reid Walker's Parnell was third.

SHOOTS HUSBAND IN PULLMAN CAR

Divorced Woman Boards the Train and Finding Him Reading Sends Ball Into His Brain

SEATTLE, Wash., June 3.—Mrs. Vera Prosser, formerly of Cleveland, is under arrest at Libby, Mont., near where she shot and killed her recently divorced husband, Reese Prosser, Seattle sales agent for the Winton motor car company, on a Union Pacific fast train, today.

Prosser's body is already on the way to Libby, O., the home of his father, Thomas Prosser, of the Card and Prosser Coal company.

Prosser was going home to meet his parents when he was slain. According to the information received here Prosser was reading a magazine as he lolled in a Pullman seat when his former wife, who had boarded the train without his knowledge, entered the car. She had been on her way through the train, the report said, looking for him. He failed to see her until she called him by name. As he looked up, the report said, she fired, and the bullet entered his head, proving fatal almost instantly. Trainmen and passengers seized the woman and guarded her until the arrival of the train at Libby, about 600 miles east of Seattle, where she was turned over to the authorities.

With a little urging on the part of Col. Roosevelt it is believed the powers will agree.

THINK TAFT PLANS NEWELL'S DISCHARGE

WASHINGTON, D. C., June 3.—A lively row in the senate is expected when the house bill providing for an increase in the efficiency of the army corps comes up for passage. It is looked upon in many quarters as paving the way for the dismissal of Director F. H. Newell, of the reclamation service.

The provision granting the president power to detail army engineers to supervise any works of construction carried on by the government has caused suspicion.

COULD HE MUZZLE THE DOGS OF WAR?

Roosevelt will Head World Peace Commission if He will Accept the Post

WASHINGTON, D. C., June 3.—Diplomatic experts and disciples of the movement for world peace are beginning to wonder today how Col. Roosevelt would muzzle the dogs of war in his proposed new capacity as chairman of the world peace commission which congress soon will create.

There is not much doubt that congress will establish the commission and there seems to be little doubt that Col. Roosevelt will be at its head, if he will accept the post. The way has been paved for the commission by the proposal of Secretary Knox to establish an arbitration court of justice at The Hague by enlarging the powers of the prize court established by the last Hague conference. This proposal is now before the powers.

So far it has been considered favorably but no formal reply has yet been made by any of the governments.

With a little urging on the part of Col. Roosevelt it is believed the powers will agree.

SHARPEN SWORDS IN RATE BATTLE

Shippers and Railroads' Forces will Meet in Chicago to Lay Out War

OLD THREAT IS ANNOUNCED

Will Stop Improvements and Fire Employees if Rate Graft Is Interfered with

CHICAGO, June 3.—A visit to President Taft is being planned today by the officials of the big railroad systems "to get a clear expression of the White House attitude in the rate situation." It is presumed an attempt will be made to influence the president.

CHICAGO, June 3.—Both sides in the war between the railroads on one side and the shippers and administration on the other are today completing their war plans.

Commercial organization in 19 cities will be reported Tuesday at a meeting in Chicago called by John E. Wilder, chairman of the conference committee appointed at the shippers' convention May 17 last. The question whether or not to apply for relief by injunction will be considered in detail, since the filing of increased tariffs with the interstate commerce commission by the eastern railroads in the belief of the shippers has made an injunction necessary for their protection.

The legal corps of 25 western railroads will be in session in Chicago Monday for the purpose of drawing up rules to guide them in their defense against the action of the government in refusing to permit an advance in the schedule of freight rates.

The Old Bluffs

As a method of protection against the mandates of the interstate commerce body, it is reported that the railroads are cancelling orders for improvement and rehabilitation of their lines, and that in certain instances plans are on foot to drop many employees from the service.

The Atchison, Topeka and Santa Fe is reported to be planning to disperse with 2,000 of its men and the St. Paul is said to be contemplating the release of 3,000 employees.

Wickersham Willing

WASHINGTON, D. C., June 3.—If further proceedings are to be undertaken by the government to prevent the increased railroad rates from going into effect it will be necessary for some shipper or organization of shippers to make a formal complaint.

Attorney General Wickersham today indicated that he is ready to institute proceedings provided evidence is presented to him that would warrant such action.

The 24 railroads in the Central Freight Association operating in Chicago and Ohio river territory whose proposed new tariffs were filed yesterday, acted in concert, just as did the western freight association against whom the attorney general obtained an injunction. They acted through one agent, C. E. Fulton.

Call For Information

WASHINGTON, D. C., June 3.—The senate today adopted a resolution by Burton (R., Ohio), instructing the interstate commerce commission to send to the senate a report giving full information as to the proposed advance in rates, and to furnish 100 samples of how leading commodities are affected. Senator La Follette announced that he would speak on the subject tomorrow.

Would Effect La Crosse

Practically every road north of Potomac and Ohio rivers and as far west as the Missouri river has now indicated officially its intention to increase its commodity rates before July 5.

EXPECT POSTAL BILL TO PASS

WASHINGTON, D. C., June 3.—With all regular republicans recorded in favor of the postal savings bank bill, as reported out of the republican caucus, the prospect for the passage of this measure seems as certain today as it is possible to predict in these rebellious days.

INDIANAPOLIS OLD BOAT

MANILA, June 3.—The transport Indianapolis sunk yesterday was one of the oldest vessels in the service of the government in the orient. She was classed as a "steam lighter," and was built in China. She was 112 feet long with a tonnage of 150. Her crew consisted of about ten men and she was used in the transport service between Manila and other island points.

WOULD PREVENT CLASH

CHICAGO, June 3.—Gov. Deneen was appealed to today by the Illinois coal operators' association to intervene and prevent the clash in the coal fields which is regarded as otherwise certain to follow the action of the striking miners in calling out the engineers and pump men at the mines.

Following Clash Between La Follette and Sherman, Former's Amendment Is Beaten Today.

MR. CUMMINS ALSO LOST

Attempt to Bar Railroad Fees to Judges of Commerce Court Brazenly Voted Down

WASHINGTON, D. C., June 3.—While Senators Elkins and La Follette were having a hurried conference during a discussion of the railroad bill this afternoon, Vice President Sherman transferred the bill from the committee of the whole to the senate. La Follette said the bill had been transferred while his attention was distracted.

"The chair," replied Sherman, "did not pursue any unusual course. He resents the charge that the transfer was made in an irregular manner."

La Follette denied that he attributed improper motives to the vice-president and said he was only stating a fact.

At the request of Senator Jones, republican, Washington, the bill by unanimous consent was returned to the committee of the whole.

An amendment by La Follette providing that no person holding any official relation to, or owning stocks or bonds of a railroad should serve as a judge of the commerce court, was defeated 29 to 32.

Beveridge offered an amendment prohibiting any member of the commerce court of any state official of accepting any gift, fee or reward from a common carrier. It was rejected without division.

AMERICANS PERILED BY CHINESE RIOTS

NANKING, China, June 3.—Conditions are ominous and there is fear today that an outbreak which may spread over the entire Yangtze valley may result. The city has been posted with placards inciting the people to the destruction of foreign life and property.

The warships of four of the powers lie in the harbor ready to land sailors at any moment. The cruiser New Orleans of the American Asiatic squadron is anchored side by side with the German, Japanese and English ships. It is feared the mob will attack the consulates.

NO WONDER THESE ALBANIANS REVOLT

VIENNA, June 3.—While awaiting punishment today in an Uskub prison for refusing to take part in the execution of his own father by a firing squad, a Turkish soldier named Affa hanged himself in his cell. The soldier's father, Affa Bey, was a prominent Albanian magnate who joined the revolution.

THE STALWART DECOY

Next Saturday a "convention" will be held in this city by standard republicans. The leaders will be the men who supported the old "Eleventh Story League," who went down to defeat with Emil Baench and the cohorts of Pfister; who "handled" the Stephenson "bundle" in this community, who hate Roosevelt and loath La Follette. They are asking members of the republican party to participate in that so-called convention as "delegates."

To those republicans of La Crosse county who believe in the progressive stand that put Wisconsin in the front row of the new movement for representative government, we say: Do not attend that convention!

To republicans who honor Roosevelt and La Follette and Cummins and Dolliver and Bristow and Pinchot and Garfield and Norris and their sturdy associates, we say: Do not attend that "Convention."

To republicans who do not endorse the Aldrich Tariff bill, who resent the artificial high cost of living, who believe in the rights of men and rebel at corporate monopoly and czarism, who distrust Aldrich and Cannon and Ballinger, we say: Do not attend that convention.

It is a cunning "frame-up" that has been attempted by the stalwart leaders. They call this meeting of their oft defeated clan a "republican

convention." Their invitation is limited by the following enunciation:

"Any one who is willing to subscribe to the party principles as they are understood by the national leaders and promulgated in the national platform is eligible in this organization. It does not matter on which side of the factional fights he has been heretofore."

But look who held the meeting that called the convention:

1. John M. Whitehead, State Senator; defeated candidate for governor in 1902.
2. L. H. Bancroft, Stephenson leader in the assembly who "handled" Stephenson "funds."
3. J. C. Gaveney, ex-State Senator, defeated for re-election because he repudiated a pledge to his constituents.
4. O. W. Johnson, ex-State Senator, defeated for re-election.
5. C. E. Estebrook, member of Assembly, ex-Attorney General.
6. George H. Gordon, United States District Attorney, appointed after "handling" big Stephenson "bundle."
7. H. H. Morgan, Assistant United States District Attorney.
8. E. H. Henning, Assistant United States District Attorney.
9. F. R. Bentley, United States Revenue Collector.
10. M. J. Wallrich, ex-Member of Assembly.
11. R. A. Etter, Postmaster at Monroe.
12. O. H. Folk, ex-Adjutant General, Peck's administration.
13. W. A. Jones, ex-Member of Assembly; ex-Indian Commissioner.
14. Solon L. Perrin, defeated candidate for State Senator.
15. E. L. Philipp, Chief of Eleventh Story League; railroad lobbyist; wants-to-be United States Senator.

Eleventh floor leaguers and Stephensonites, the "federal crowd," the appointees who hold office by grace of the Aldrich machine.

And look who, for example, are named as La Crosse county's representatives:

- John M. Holley, George H. Gordon, Orlando Holway, George W. Burton, F. P. Hixon, C. S. VanAuker, J. L. Pettigill, J. W. Bryant, F. W. Sisson, R. D. Gelatt, E. G. Perkins, Frederick G. Cowles, B. C. Smith, W. E. Barber, J. I. Lamb, F. P. Bryant, F. W. Hurlen, of this city; A. N. Moore and James Moore of Onalaska and L. W. Dudley and L. B. Cox of West Salem.

No comment necessary. The names speak for themselves. Understand, this is no criticism of these gentlemen as to their private morals or usual relations, but it is a protest against their assumption of the right to make politics an instrument of private business. Seldom in the past decade has one of these men supported a republican candidate who was elected, barring a scratch now and then, and yet they claim to be the republican party. They are picked by the "federal crowd," the emissaries of Aldrich vouched for by the ancient and honorable "Ike" Stephenson. The men they supported during the election primary two years ago polled about 40,000 votes as compared with 100,000 polled by the La Follette republicans. They represent money in politics, and that money is spent to defeat the rights of men as opposed to the privileges of corporations. For instance, of the "leaders" named above we have the following list who "handled" Stephenson money in his successful financial bid for the United States senatorship which he has since employed to aid the Aldrich crowd in trampling upon popular justice:

Bancroft	\$250.00
Morgan	275.00
Etter	200.00
Gaveney	375.00
Gordon	1,800.00
Perrin	5,000.00

It is to support this propaganda that you are invited to attend a "convention" tomorrow as "delegates." They say it is to support President Taft; it is in fact to oppose La Follette. Taft is not running for office. The republican congressional delegation from this state is not in peril of defeat. IT IS TO DEFEAT THEM BECAUSE THEY ARE LA FOLLETTE REPUBLICANS, which means PROGRESSIVE republicans, that THIS MEETING IS CALLED. They say to you it is to elect republicans. It is to DEFEAT PROGRESSIVE REPUBLICANS, and to ELECT STALWART REPUBLICANS, or failing in that, TO ELECT REACTIONARY DEMOCRATS. These men care not a whit whether congress and the president be republican or democrat, PROVIDED THEY ARE FOR MONOPOLY.

How Fat May be Removed Rapidly by a Simple Home Remedy Without Causing Wrinkles, Disturbing the Diet or Necessity for Exercise

"Fat is nothing but unused energy," says a prominent physician, and the man or woman who is burdened with it can easily get rid of it if they wish. All they need is 1/2 ounce of Marmola, 1/2 ounce of Fluid Extract Cascara Aromatic and 3 1/2 ounces of Peppermint Water; all of which they can get at any good drug store for a few cents. Then let them take one teaspoonful after meals and at bedtime until they are down to the weight they want to be.

This simple home receipt is far and away better than any or all the patent or secret medicines, for it reduces the fat safely and harmlessly. The ingredients are in fact beneficial to the system, having both tonic and purifying qualities, and so help rather than distress the stomach. The remedy does not cause wrinkles, for it reduces one gradually and naturally, preserving a good outline and best of all, needs neither physical exercise to help it do the work, nor does it require any change in diet—one can get results and still take things easy—eating meanwhile just what, when and how he or she pleases. Be sure and get the Marmola in a sealed package, so that you get Marmola and not a substitute.

NOPOLY AND THE CORPORATIONS. But, under the cloak of republican "regularity," and in the name of President Taft, THEY ARE SEEKING YOUR AID AND CO-OPERATION UNDER FALSE PRETENSES.

The Tribune advises all men who have been invited to become delegates to the so-called "convention" Saturday to study the matter carefully. If they are against La Follette and Cummins and Pinchot and the associates of these men, and if they are for Aldrich and Cannon and Ballinger, let them attend. But if they are with La Follette and Cummins and against Aldrich and Cannon, let them stay away, for this is an Aldrich convention framed and designed to deceive and betray the independent and progressive republican voters of Wisconsin.

Of the wonders in our midst of which the average citizen knows little or nothing, none surpasses the Hirshheimer Plow Works. It is an industrial city unto itself. Every department is a great factory. The visit of the advertising committee of the board of trade yesterday was a pleasant one, and it was with amazement that the magnitude of the institution was seen. In the too brief inspection of the plant but a meager idea of it could be acquired, but it was enough to impress upon the guests, in some measure, the extent to which this great institution contributes to the wealth production and wage distribution of the community. It makes largely for general activity and prosperity.

Monica Dunn's exposition of the workings of the coupon ballot at the Civic Center meeting last evening was lucid and convincing. We suggest that Mr. Dunn be given every possible opportunity to publicly explain the ballot between now and election day. We have authority from him to extend to all candidates and men who may become election officials, as well as to citizens in general, an invitation to listen to a private explanation. Mr. Dunn desires to assist in every way the necessary work of making the use of the ballot plain.

HORSE AT MAJESTIC DIES

Stage Manager Bill Freise is having his troubles this week. They are not the ordinary kind, simply because of that extraordinary act entitled "Bargain Mad" is playing at the house this week. Besides having to handle a thousand boxes and parcels of different hues, varieties and shapes, Bill is obliged to provide a horse for the act. Mr. Gardner, who plays the part of "hubby," is supposed to get the horse at a bargain sale, in the same manner as "wifey" has purchased all her articles, it needs must be a hungry looking "skate." Monday the stage manager, after scouring the neighboring country for a horse, which he could get for the week, succeeded in landing one near Midway which he purchased for \$1. Bill was favorably impressed with the "nag" and took him back to the city; that is, he made a brave attempt to get the horse as far as La Crosse, but as he was leading the equine into the north side, the animal gave up the ghost, side, the animal died. That ended the laid down and died. That ended the stage manager's aspirations as a horse trader, as he had been stung on the first deal. Giving up this line of effort, Bill's versatility again evinced itself when he made application for aged and decrepit quadrupeds at the humane offices. He at last succeeded in getting the animal in time for the evening performance and if you should perchance happen to stroll around in the rear of the theater during the afternoon, you may see tied there a hungry looking

Going Maying
Oh, that we two were Maying
Down in a sylvan dell;
A call on the wildwood paying,
Each with an umbrella.

Oh, that we two were Maying
Deep in the meadow dews;
Down by the brookside straying
Wearing our overshoes.

Oh, that we were Maying!
Then, should we weary grow,
We might, verchance, go sleighing—
Looks like we might have snow.
—Washington Herald.

Now He Thinks It's Wrong to Bet
Two old cronies went into a drug store in the downtown part of New York city, and addressing the proprietor by his first name, one of them said:

"Dr. Charley, we have made a bet of the ice cream sodas. We will have them now, and when the bet is decided the loser will drop in and pay for them."

As the two old fellows were departing after enjoying their temperance beverage the druggist asked them what the wager was.

"Well," said one of them, "our friend George bets that when the tower of the Singer building falls it will topple over toward the North river, and I bet that it won't."
—Everybody's Magazine.

Neglected His Chances
"I was born in a log cabin on farm," began the tramp, but he got no further.

"And is this all you have made of such splendid opportunities?" cried the men he hoped to touch.

"You deserve no consideration whatever."
And he angrily passed along.
—Cleveland Plain Dealer.

Greatly Encouraged
"Was your story accepted?" asked the bosom friend.

"No," answered the struggling author, who has hopes of selling something before she dies, "but I think the tale made an impression on the editor."

"Oh, how lovely!" cried the bosom friend. "Do tell me why you think he was impressed."

A tender smile flitted across the face of the discouraged author. "I noticed that the pages containing the account of my hero's death were spotted with what looked like teardrops," she replied.
—Chicago News.

Is It Coming To This?
Beggar (returning a penny to the giver).—Excuse me, lady; I can't take less than 3 cents.

"Why not?"
"Them's the union's rules, and if I take less I lose my card."
—Megendorfer Blaetter.

"My dad said he'd leave me his entire fortune if I'd stay on the water wagon one year."

"Well, why look so glum? You've done it for eleven months."

"Yes—and father went broke yesterday!"
—Cleveland Leader.

The Price of Eloquence
The auctioneer held up a battered fiddle.

"What am I offered for this antique violin?" he pathetically inquired. "Look it over. See the blurred fingermarks of remorseless time. Note the stains of the hurrying years. To the merry notes of this fine old instrument the brocaded dames of fair France may have danced the minuet in glittering Versailles. Perhaps the vestal virgins marched to its stirring rhythms in the feasts of Lupercalia. Ha, it bears an abrasion—perhaps a touch of fire. Why, this may have been the very fiddle on which Nero played when Rome burned."

"Thirty cents," said a red nosed man in the front row.

"It's yours!" cried the auctioneer cheerfully. "What next?"
—Cleveland Plain Dealer.

Would Leave That to a Professional
She (after proposal from impetuous suitor).—Why, you couldn't even dress me.

He (embarrassed).—Well—er—no. But you would have your maid.
—M. A. P.

Lasting Love
They strolled down the old lane. "And do you really love me, George?" she asked for the tenth time.

"Love you!" he echoed, heroically. "I love you, and always shall love you, my pet."

"You really mean that?"
"Yes, I shall love you until the sky falls."

"Oh, George!"
"Yea, until the sun falls."
"Gracious, George!"
"Even until the price of beefsteak falls."

Bidding him to say no more, she placed her slender hand within his own and they strolled away to the nearest parsonage.
—Chicago News.

He—Would you rather be beautiful or clever?
She—Beautiful, I think. You see, there are lots of stupid men, but only a few blind ones.
—Boston Transcript.

GOOSE GIRL

By HAROLD MCGRATH
Copyright by Bobbs-Merrill Company

And was she happy with all this grandeur, with all these lackeys and attendants and environs? Who can say? Sometimes she longed for the freedom and lack-care of her Dresden garret, her musician friends, the studios, the crash and glitter of the opera. To be suddenly deprived of the fruits of ambition, to reach such a pinnacle without striving, to be no longer independent, somehow it was all tasteless with the going of the novelty.

She looked like a princess, she moved and acted like one, but after the manner of kindly fairy princesses in story-books. All fell in love with her, from the groom who saddled her horse, to the chancellor, who up to this time was known never to have loved anything but the state.

She was lovely enough to inspire fervor and homage and love in all masculine minds. She was witty and talented. Carmichael said she was one of the most beautiful women in Europe. Later he modified this statement by declaring that she was the most beautiful woman in Europe or elsewhere. Yet, often she went about as one in a waking dream. There was an aloofness which was not born of hauteur but rather of a lingering doubt of herself.

She was still in the window-seat when the chancellor was announced. She distrusted him a little, she knew not why; yet, when he bent over her hand she was certain that his whole heart was behind his salute.

"Your Highness," he said, "I am come to announce to you that there waits for you a high place in the affairs of the world."

"The second crown in Jugendheit?"
"Your father—?"
"Yes. He leaves the matter wholly in my hands."

The sparkle in his eyes was the first evidence of emotion she had ever seen in him. It rather pleased her.

"It is for the good of the state. A princess like yourself must never wed an inferior."

"Would a man who was brave and kind and resourceful, but without a title, would he be an inferior?"
"Assuredly, politically. And I regret to say that your marriage could never be other than a matter of politics."

"I am, then, for all that I am a princess, simply a certificate of exchange?"
His keen ear caught the bitter undercurrent. "The king of Jugendheit is young. I do not see how I can help vowing you the moment he knows you. Who can?" And the

chancellor enjoyed the luxury of a smile.
"But he may not be heart whole."
"He will be, politically."
"Politics, politics; how I hate the word! Sometimes I regret my garret."

The chancellor frowned. "Your Highness, I beg of you never to give that thought utterance in the presence of your father."

"Ah, believe me, I am not ungrateful; but all this is new to me, even yet. I am living in a dream, wondering when I shall wake."
The chancellor wrinkled his lips. It was more of a grimace than a smile.
"Will you consent to this marriage?"
"Would it do any good to reject it?"
"On the contrary, it would do Ehrenstein great harm."
"Give me a week," wearily.
"A week!" There was joy on the chancellor's face now, unmasked, uncontrolled. "Oh, when the moment comes that I see the crown of Jugendheit on your beautiful head, all my work shall not have been in vain. So then, within seven days I shall come for your answer?"
"One way or the other, my answer will be ready then."
"There is one thing more, your Highness."
"And that?"
"There must not be so many rides in the morning with his excellency, Herr Carmichael."
She met his piercing glance with that mild duplicity known only to women. "He is a gentleman, he amuses me, and there is no harm. Grooms are always with us. And often he is only one of a party."

"It is politics again, your Highness; I merely offer the suggestion." "Marry me to the king of Jugendheit, if you will, but in this I shall have my way." But she laughed as she laid down this law.
He surrendered his doubt. "Well, for a week. But once the banns are published, it will be neither wise nor—"
"Proper. That is the word, Count, that I do not like."
"Pardon me, your Highness. All this talk is merely for the sake of saving you needless embarrassment."
He bowed and took his leave of her.
"Jugendheit! Ah, I had rather my garret, my garret!"
And her gaze sped across the Paltz and lingered about one of the little window-balconies of the Grand Hotel.

CHAPTER IV.
The Young Vintner.

The Black Eagle (Zum Schwartz-zen Adler) in the Adlergasse was a prosperous tavern of the second-rate. The house was two hundred years old and had been in the Bauer family all that time.
Had Frau Bauer, or Frau-Wirtin, as she was familiarly called, been masculine, she would have been lightly dubbed Bauer VII. She was a widow, and therefore uncrowned. She had been a widow for many a day, for the novelty of being her own manager had not yet worn off. She was thirty-eight, plump, pretty in a free-hand manner and wise. It was useless to loiter about the English bar where she kept the cash-drawer; it was useless to whisper sweet nothings into her ear; it was more than useless, it was foolish.
"Go along with you, Herr; I

wouldn't marry the best man living. I can add the accounts, I can manage. Why should I marry?"
"But marriage is the natural state!"
"Herr, I crossed the frontier long ago, but having recrossed it, never again shall I go back. One crown-forty, if you please. Thank you."
This retort had become almost a habit with the Frau-Wirtin; and when a day went by without a proposal, she went to bed with the sense that the day had not been wholly successful.
Tonight the main room of the tavern swam in a blue haze of smoke, which rose to the blackened rafters, hung with many and various sausages, cheeses, and dried vegetables. Dishes clattered, there was a buzzing of voices, a scraping of feet and chairs, a banging of tankards, altogether noisy and cheerful. The Frau-Wirtin preferred waitresses, and this preference was shared by her patrons. They were quicker, cleaner; they remembered an order better; they were not always surreptitiously emptying the dregs of tankards on the way to the bar, as men invariably did. Besides, the barmaid was an English institution, and the Frau-Wirtin greatly admired that race, though no one knew why. The girls were fully able to defend themselves, and were not at all diffident in boxing a smart fellow's ears. They had a rough wit and could give and take. If a man thought this an invitation and tried to take a kiss, he generally had his face slapped for his pains, and the Frau-Wirtin was always on the side of her girls.

DOUBLE TRACKS FAR AS WINONA

The work on the double tracking on the Milwaukee road between New Richmond and Wabasha is being rushed to a state of completion and at the present time, rails have been laid as far as Winona. Large crews of men are at work in the outskirts of that city laying the steel for the new tracks north of that city. The grading and track laying activity extends all the way from Dresbach to Wabasha. At various intervals the work is being carried on preparing for the laying of the rails. It is expected that the double tracks will be finished in time to handle the large grain movement in the fall.

With the double tracks the road

will have the facilities for handling its immense traffic much more satisfactory than at the present time. With the tremendous increase in business which the Pacific coast extension is certain to bring, this double tracking became a necessity.

SOON WILL CLOSE IMPORTANT WORK

Rev. Shute will Leave Soon for Important New Charge in the West

HAS ACCOMPLISHED MUCH

Bismark Call Is Strong Inducement; Successor Is a Vigorous Worker

After nearly two years' service in La Crosse as pastor of the First M. E. Church, Rev. A. Lincoln Shute has received a unanimous call to the pulpit of the fine new \$35,000 Methodist church at Bismark, N. D., exchanging pulpits with its present pastor, Rev. Louis Magin, who will occupy the pulpit of the First Methodist church here beginning Sunday, July 3.

The call to Bismark did not at first appeal to Rev. Shute who had no idea of going west, but impressed both by the cordiality and the insistence of the congregation he finally took the matter seriously, and is now pleased with the knowledge that a good field among pleasant people awaits him.

The departure of Rev. Shute closes a most interesting pastorate. A man of deep convictions and untiring energy, his energetic stand relating to matters of public morality and inter-denominational affairs kept him much in the lime light. It will be recognized, even by those who have disagreed with him on some questions, that his work here has been an impulse for good not confined to his own congregation.

Bible Study a Feature
Rev. Shute devoted himself with particular energy to Bible teaching, a specialty in his church work in which his people became deeply interested, and which has resulted in a clearer understanding and appreciation, a fact in testimony of which the doctor may with becoming modesty display in his library a great easy chair presented to him upon his birthday by members of his Bible class. His farewell function was a social tendered to him by the

members of the class.

Another important departure inaugurated by Rev. Shute was his Teachers' Training class. This began with fundamental Bible study after which preparation, pedagogy and child study were pursued to finish the course. This pursuit is still being followed and will probably remain a permanent feature of the church work.

The revival work with which Rev. Shute has recruited and strengthened his congregation was conducted with that fervor coupled with appeal to intelligence calculated to have the best results, and it is not that in the case of this pastor there has been shown little of the tendency of converts of backslide.

During his stay here church improvements to the extent of \$2,000 were made, and the pastored showed himself astute on the practical side of church management.

A novel and interesting activity of Rev. Shute is on behalf of physical culture in the church. He led the work himself, and by participation in arduous labors succeeded in interesting his followers in the work that has been of much physical benefit.

Native New Yorker

Rev. A. Lincoln Shute was born in New York state in 1865, coming to Iowa at the age of four years where his father died six weeks after their arrival. Later they lived in northern Illinois. He graduated

from Mount Morris college academy in 1883 and in 1887 from Cornell College, Iowa, completing his work in the Drew Theological Seminary in Madison, N. J., in 1890.

He immediately became a member of the Rock River conference of the Methodist Episcopal church, remaining in it eighteen years. His active work as a pastor, now in its nineteenth year, was spent in Chicago and Iowa, five years in La Salle, Ill., nine in Chicago and the balance in Iowa. He came to La Crosse in October, 1908, from the Wesley Methodist church at Chicago. He leaves here a large host of friends and admirers and a distinct impression of progressive ministry that has sown the seed for further good things in the community.

New Man is Vigorous

Rev. Louis Magin, who comes here in exchange of pulpits with Rev. Shute, brings to La Crosse a pastor of wide experience and notable achievement. He is distinctly a Dakotan in the vigor and enterprise which characterize him. Besides being pastor of the M. E. church, he is chaplain of the House of Representatives and has been chaplain of the state penitentiary for two years.

Sr. Magin was born September 21, 1873, in Taylorville, Illinois. His father was Peter Magin, of German birth and his mother, also German, was Elizabeth Will, a native of Canal Dover, Ohio. He was educated in the public schools at Edinburg, Ill., graduating in its first High school graduating class, and attended the Illinois Wesleyan University, which conferred on him the degree of B. A., in 1895, and M. A., in 1903. He also attended the Boston University School of Theology, which gave him the degree of Bachelor of Sacred Theology.

WINS GIRL ON AN OCEAN GREYHOUND

BERLIN, June 3.—An "aboard ship" romance that has ripened into an engagement was made known last night when Nat Boas of San Francisco gave a party at the Hotel Adlon to a number of fellow Californians and then told them of his successful suit for the hand of Miss Madeline Wolff, daughter of David Wolff of Philadelphia. The couple met on the voyage across.

CONFIDENCE IN THE BALLOT DEMANDED

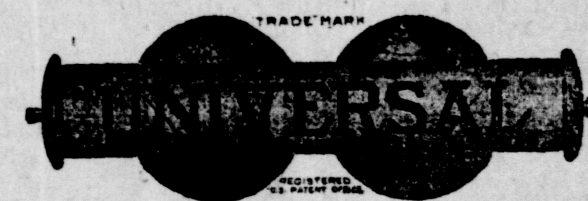

Strong Point Brought Out
by Monceca Dunn at
Washington School
Last Night

That what the nation needs above all in the solving of all important questions is a confidence in the ballot was the point brought out by Monceca Dunn, inventor of the Dunn coupon ballot, in his address before the Civic Social Center society at the Washington school last evening. The meeting was attended by about forty voters, many of whom were not members of the society.

Mr. Dunn spoke for about an hour and a half and during that time his hearers were intensely interested in his remarks. He began his talk by explaining how he conceived the idea of inventing a ballot to improve the present system four years ago when he heard four different men attempt to explain to a voter how to vote the Australian ballot. He said he expected it would take at least ten years before the coupon ballot would become universally adopted. He said he realized that it was a great undertaking to change the methods of the nation but he was confident that when the coupon system is once understood that it will appeal to the public because it will be one in which the people will have confidence.

The speaker then explained how easily it is to tamper with the present ballot and change the vote after it leaves the voter. For instance should a member of an election board be interested in the election of a certain candidate on the ticket it is an easy matter for him, with a small piece of lead under his fingernail, to place an extra mark on several ballots, thus changing the election, should it be close.

Many other phases of the lack of

confidence in the present system were thoroughly explained. Mr. Dunn said it is an easy matter, under the Australian ballot system, to buy a voter and have absolute proof that the voter "did as he was told." He explained it in this way. Each man who is bought agrees to write a certain name in the blank space under the name of a candidate in which there is no particular interest. One voter for the sake of identifying his ballot, writes in the name "Smith" under a certain candidate, while another uses the name "Brown." If the balance of the ticket is voted as agreed, then the voter receives the amount promised. In this manner there is a chance to buy voters and have proof that the voter does as he promises.

The question of "fixing" voting machines was also explained by the speaker, showing that even this system has been found wanting and that in the state of Massachusetts the supreme court has ruled them out in a decision handed down. The placing of a small rubber band around the lever of the counter behind a certain name, will prevent it from counting and this, he said, had been practiced in some places, according to information given him by a voting machine man.

After explaining the defects in the present system and all other plans that had been thought of to improve the Australian ballot, the speaker explained how to vote the coupon ballot, and he convinced everyone present that the Dunn ballot was an improvement over anything yet invented in the voting line. Several questions were asked which were answered and at the conclusion of the talk Mr. Dunn was given a vote of thanks for explaining the coupon ballot.

It was decided to hold the last meeting of the spring season on the evening of June 16, when ladies will be invited. The meeting will be open to the public. The program has not as yet been decided upon.

JAPANESE OFFICIALS

FEAR ASSASSINATION

TOKIO, June 3.—The government today is showing the utmost secrecy in its investigation of the reported socialist plot against Premier Katsura and other members of the Japanese cabinet. No one besides the government's trusted agents is permitted to see the half dozen alleged conspirators who have been arrested. Cabinet members and other government officials make no attempt to conceal their fear of assassination.

CONSTIPATION MUNYON'S PAW-PAW PILLS

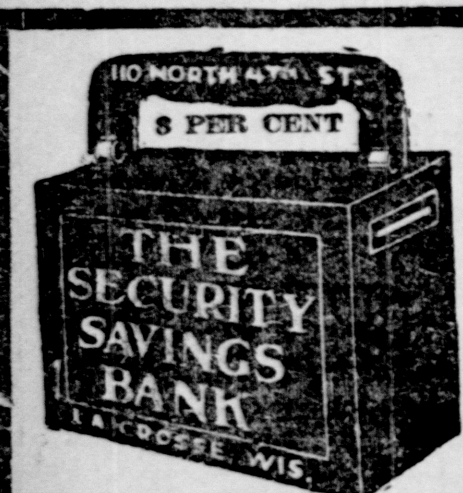

Munyon's Paw-Paw Pills are unlike all other laxatives or cathartics. They coax the liver into activity by gentle methods. They do not scour; they do not grip; they do not weaken; but they do start all the secretions of the liver and stomach in a way that soon puts these organs in a healthy condition and corrects constipation. In my opinion constipation is responsible for most ailments. There are thirty-two feet of human bowels, which is really a sewer pipe. When this pipe becomes clogged, the whole system becomes poisoned, causing biliousness, indigestion and impure blood, which often produces rheumatism and kidney ailments. No woman who suffers with constipation or any liver complaint can expect to have a clear complexion, or enjoy good health.

Munyon's Paw-Paw Pills are a tonic to the stomach, liver and nerves. They invigorate instead of weakening; they enrich the blood instead of impoverishing it; they enable the stomach to get all the nourishment from food that is put into it.

NINE ACRES OF FLOOR COVERED

Surprising Facts About the
Hirshheimer Plow Works
as Seen by Board of
Trade Party

IT IS A STUPENDOUS PLANT

Intricacies of Steel Manu-
facture Witnessed by the
Committee Entertained
by the Proprietors

Do you know—
That there are nine acres of
floor space under cover in the
plant of the Hirshheimer Plow
Works?
That the night watchman's
beat at the plant is two and a
half miles long?
That it manufactures 100
varieties of farm implements
and 120 styles of vehicles?
That it carries in stock thousands
of tons of iron and steel,
and more bolts than are carried
by all the hardware stores in
La Crosse combined?

These are some of the surprising
facts discovered by the advertising
committee of the Board of Trade,
which visited the plant yesterday.
The members present were William
Doerflinger and John Utermoehl,
president and secretary respectively
of the board, F. W. Leahy, E. M.
Wing, Harry Long, Adam Kroner,
Thomas S. Thompson, F. W. Cowles,
John A. Bayers, Adolph Candrian,
George W. Frederick and A. M.
Brayton.

The inspection was necessarily
limited owing to the fact that the
party did not arrive until after four
o'clock, and to describe in any de-
tail the many departments visited
during the ensuing two hours would
be impossible, time allowing only a
brief mention of some of the most
interesting features.

Variety of Products
The party entered at the large
sample room in which are stored
120 styles of carriages and automob-
iles upon every one of which, as
is the case with all the Hirshheimer
products, the name of La Crosse
appears conspicuously to advertise
this city in almost every agricultural
country in the civilized world. In
this connection it was interesting to
note a gang plow being manufactured
especially for the trade in Argen-
tine Republic, South America, and
a "left hand" plow the sole market
of which is Indiana where the Hoo-
siers have declined to follow the
innovation of the right hand plow
and still stick to the style employed
in the early years of the industry.

A Flying Trip
A laugh was created when Louis
Hirshheimer, who assisted his father,
A. Hirshheimer, in showing the
visitors through the intricacies of
the factory, responded to the latter's
suggestion that he give the gentlemen
a "fast ride," by turning the
hydraulic elevator loose at a speed
that threw Mr. Utermoehl into a
panic lest he be hurled through the
rafters. It was a near-flying ma-
chine trip, and Louis Hirshheimer
suggested that except the aeroplane
it was the fastest vehicle invented
since some ancient genius developed
the little red one horse cart that
used to streak over the country roads,
a sample of which was pointed to as
having been at one time the most
sold vehicle on the market.

An Emblem of Progress
After passing through the oldest
building in the plant, built some 18
years ago, Mr. Hirshheimer pointed
out from a tramway connecting two
departments the figure of a man
holding a plow, which had been saved
from lumber by Mr. Hirshheimer's
former partner, J. M. Bradley,
many years ago. At one period it
had been taken down but it has now
been replaced and adorns the front
of the building, a fitting reminder
of the simple beginning from which
genius and industry have built up
this stupendous institution.

A Great Railway System
Running through the various de-
partments, Mr. Hirshheimer called
attention to an overhead railroad
which he jokingly said was "under
the control of no commission,"
and which of all the economical de-
vices with which modern ingenuity
has equipped the plant affords the
greatest saving. By a simple ar-
rangement all machinery is hung to
a groove in this track, and it goes
from one department to another,
from assembling to painting and
varnishing, without being removed,
finally continuing on the overhead
railway to the railroad cars in which
it is shipped or to the warehouses
where it is stored. It facilitates
speed and eliminates innumerable
handlings of the machinery.

Fine Tempered Steel
It would be difficult to recite
from memory all the interesting
stages of manufacture of steel im-
plements, the moulding in the im-
mense foundries, the shaping of
hundreds of parts of irregular de-
sign that are finally assembled into
the perfect machine, in the black-
smith shop, the trueing and finish-
ing and sharpening and tempering
of steel implements. Perhaps the
most interesting of all of these is
the tempering and finishing of the
plow share, which goes from the in-
tense heat to which it is subjected
into water in cold storage regulat-
ed within two degrees and afford-
ed by the usual ammonia process.
Mr. Hirshheimer demonstrated how
upon any one of the edges of a share
fresh from this tempering a pane
of glass could be cut with the cer-
tainty and precision of the diamond
glass cutter.

A Drink for the Gods
Mr. Hirshheimer invited his
guests to take a drink at the great
private well, whose water he said

GREAT FLEET FOR MOTORBOAT PICNIC

Boats to Make Auspicious
Start for Eagle Bluff
from Levee at 9 a. m.
Next Sunday

ARRANGEMENTS COMPLETE

Chef John Neukomm Is to
Serve Fine Dinner, and
Games Are Arranged
for Afternoon

Final details of arrangements
for the stag outing to be given by
the La Crosse Motorboat club Sun-
day at Eagle Bluff, were completed
last evening at a meeting of the
outing committee, which was at-
tended by Chairman Otto J. Munz,
Theodore Thompson, G. Dollert,
Commodore John C. Toeller and
Fleet Captain Lee Bell.

Returned cards show that the
outing will be the biggest thing
ever undertaken since the organi-
zation of the club, and it would not
be surprising if there are more than
100 boats in line when the start is
made. Fleet Captain Lee Bell, who
is thoroughly familiar with the
narrow channels in the vicinity of
Eagle Bluff, will be at the levee
landing an hour before the start,
which will be made at 9 o'clock
Sunday morning, and as the boats
arrive they will be given a number.
Commodore Toeller's boat "Swasti-
ka" will lead off the procession and
the other boats will fall in according
to the number given them, the in-
tention being to make the run single
file. In addition to the officers in
charge A. S. Gilbertson, owner of
the new and fast motorboat
"Moose," has been appointed to per-
form the duties of dispatch boat.
Two photographers will be taken on
the trip and numerous pictures will
be taken of the fleet and of the do-
ings at the picnic. It was decided
last night to leave the matter of
decorating boats optional with the
owners of the craft, but it is likely
a number will be decorated to some
extent.

Upon arrival at the grounds ar-
rangements will be made at once
for dinner, which will be served by
Chef John Neukomm. The menu
will include chicken salad, veal
steak, macaroni, potatoes, coffee and
other delicacies. The afternoon will
be devoted to music, games and other
amusements, including a ball
game between the North and South
side boat owners. At supper time
lunch will be served, including ham
and cheese sandwiches, etc., and the
start homeward will be made early
enough so that the boats will reach
the La Crosse levee in procession
form before dusk. The procession
will then break form, the boats re-
turning to their respective boat-
houses.

had been condemned by a specialist
employed by advocates of the river
water system, and the manufacturer
took no pains to disguise his skepti-
cism, in regard to the accuracy of
the conclusion drawn. Nobody
seemed afraid of the water and all
partook of a drink of the sparkling
beverage.

A Mysterious Tunnel
Returning from the departments
on the east side of Third street to
which they had gone across the car
tracks, the party was surprised upon
entering a great underground
tunnel under the street the exist-
ence of which no one had suspect-
ed. It was constructed to save in-
terference in traffic to and fro
across the streets.

Machines to Make Machinery
Particular interest developed in
the various machinery used in the
manufacture of implements and ve-
hicles. As most of these implements
have been invented and developed
in the Hirshheimer plant, it was al-
so essential that machinery for
their fast and economical manufac-
ture be designed, and in the case of
the plow works the ingenuity to ac-
complish this has not been wanting.
It is probable that there is nowhere
in similar plants a more speedy and
economical process of construction.
At the conclusion of the visit,
which both hosts and visitors pro-
nounced all too short for the pur-
pose, Mr. Hirshheimer passed the
cigars and bade farewell to his
guests with a cordial handshake.

CONSIDER OFFER OF LIGHT COMPANY

Regular and Special Light
Committees will Hold
Meeting on Monday
Evening

Alderman John F. Downs, chair-
man of the regular light committee
of the common council, today called
a meeting of the regular and the
special light committees for next
Monday evening when the proposi-
tion submitted by the La Crosse Gas
& Electric company for lighting the
city will be considered. At the last
meeting of the common council the
proposition of the company came up,
but it was referred to the two
committees. The company offered to
furnish are lights at \$55 and \$60
but the council did not feel disposed
to accept this offer and at the
meeting of the committees Monday
evening the whole matter will be
gone over. The regular committee
is composed of Aldermen Downs,
Tarbox and Goddard and the special
committee comprises Aldermen
Lang, Rose, Smith, Vollmar and
Tarbox.

Don't Want "Railroading"
Figures of experts indicate that
the lights can be furnished for \$35
to \$40 each by means of a municipal
plant, and members of the special
lighting committee want the vote
held up until the people have a
chance to vote on whether or not
they want a municipal plant. The
present contract with the company
has a year to run, so it is set forth
there is no good reason for "rail-
roading" through a new contract at
this time, and thus deprive the peo-
ple who pay the taxes of an oppor-
tunity of expressing themselves on
how they want this branch of city
work done. The municipal plant
was favored at a former election,
but the vote would have to be taken
again owing to technical errors in
the election notices at that time.

DETECTIVE MAKES REPORT TO MAYOR

After submitting a report of his
findings to the mayor, Detective
Owen O. Wiard left the city this
morning. The mayor said the report
called attention to evils that exist in
the city, the principal ones being
that of saloonkeepers selling liquor
to minors and to girls, the walking
of streets by questionable women,
the violation of the cigarette law and
the playing of cigar machines by
minors.

Mayor Sorensen said today that
the report would be given attention.
"We will quietly clean up things
without making much noise about it,"
said the mayor, "and this will be
done without prosecutions if possi-
ble."

Wiard Ready to Testify
Detective Wiard in an interview
today said he wished to deny a story
published locally to the effect that he
had declined to return to La Crosse
as a witness if wanted, and that he
had admitted enticing young girls
into wine rooms in the course of his
investigation of the license alleged to
be assumed in local reports.

"I am ready at any and all times
to appear here as a witness or to co-
operate in further work," said Mr.
Wiard. "I also wish to deny posi-
tively that I ever took a young girl
into a wine room, or induced one to
enter. I also instruct my assistants
never to do this, for to do so is a
crime. The false assertion that I did
so is without foundation and libels
me."

STRIKE AT FLOUR MILL UNCHANGED

No new developments have taken
place in the strike situation at the
Listman mill, and the establishment
is still closed. Manager George M.
Heath is in Chicago today, and upon
his return tomorrow morning another
conference will be held between
him and the strikers' committee. A
meeting of the strikers was held last
evening at which the proposition of
the company was considered, but no
action was taken. Some of the men
are favorable to accepting it and re-
turning to work, while a few are
still hanging out. It is expected,
however, that when Mr. Heath re-
turns the matter will be adjusted
satisfactorily to all parties concern-
ed.

The lecture on the subject, "The

of St. James M. E. church, Chicago,
is the principal event of the opening

ed at the King street church at 1:30
this afternoon. It has been decided
that no admission will be charged,
but that instead a silver offering
will be taken up. This makes all ses-
sions of the convention free to the
public. Dr. Mitchell is recognized as
one of the greatest orators and lec-
turers in the service of the metho-
dist church, and it is likely there
will be a capacity attendance of those
who enjoy an oratorical treat.

While many of the delegates had
arrived in the city at noon, the bulk
will come on the late afternoon
trains. It is expected there will at
least be 100 outside delegates here
for the convention which continues
until Sunday evening. The towns

THE CREVE COEUR CAMP ESTABLISHED

By the moving into place of the
houseboats and cottage outfits of O.
J. Munz, J. A. Thwing, J. C. Toeller,

tablished on the Minnesota shore
north of the old La Crescent picnic
grounds, and will soon be in full
swing for the summer. The ground
from the inlet opposite the first
small island above the railroad
bridge to the point of the slough
midway to the Junction dam, has

JUMPS FROM TRAIN; STRIKES A SWITCH

About 1 o'clock this morning Jo-
seph Schultz, claiming to live at 27
Tenth avenue South, Milwaukee,
called at the police station and dis-
played a deep gash below the left
knee. He said he came in on the
head end of No. 4 on the Milwaukee
road from Minneapolis and in jump-
ing from the moving train he struck
a switch sign, cutting his leg. He
was ordered to St. Francis hospital
by a physician and today he was re-
ported to be resting easily.

PATROLMAN WOLF RESTING EASILY

Patrolman Frank Wolf, who was
accidentally shot in the leg by the
accidental discharge of his revolver,
is resting easily at St. Francis hos-
pital today. Last night he suffered
considerable pain, however. The at-
tending physician believes the in-
jury will not prove serious, although
the bullet passed through the mus-
cle in the leg and therefore the
wound is very painful.

IS CONGRATULATED BY THE AVIATORS

PARIS, June 3.—Count Jacques
de Lesseps, one of three men who
have flown across the English chan-
nel in an aeroplane, today tele-
graphed his congratulations to Chas.
Stewart Rolls, the English aviator
who yesterday made a round trip
flight over the channel.

"Rolls made a wonderful flight,"
de Lesseps declared.

"The ease with which he accom-
plished the flight is a great tribute
both to his aviation skill and to the
Wright machine he used. The next
thing attempted will probably be a
flight across the North Sea from
England to Germany."

Blieriot Not So Generous.
Louis Blieriot, the first of the
aerial channel crossers, was not so
generous as de Lesseps in his com-
ments on Rolls' flight.

"There was nothing sensational
about it," Blieriot said. "Rolls' suc-
cess was due to his motor and the
perfect condition of the weather."

"More Coming"—Wright.
DAYTON, O., June 3.—"Captain
Rolls made a very nice flight," said
Orville Wright today when asked for
an expression regarding the Engli-
shman's feat in making a round trip
over the channel.

"It was one of those spectacular
achievements," he said, "of which
we may expect more right along."

WOULD HURRY BILL

WASHINGTON, D. C., June 3.—
Unrest efforts are being made by
the house leaders to secure an
agreement whereby the debate on
the postal savings bank bill may be
limited to one day of general de-
bate and another for debate under
the five minute rule. If this plan
prevails the measure can be gotten
out of the way in a hurry.

TOMAH MAN VICTIM OF A BOLD HOLD-UP

TOMAH, Wis., June 3.—(Special)—W. Kaplin, who recently sold his farm near Oakdale to reside in Tomah, was the victim of a hold up while on his way into the country alone Monday night. Mr. Kaplin had spent the day in Tomah and in the evening started for the farm of Louis Fiddler, about two miles north of town, to spend the night there. Between seven and eight o'clock, when he was not more than a mile from town, three men jumped out on him, pointing their revolvers at him and demanded money. Quite a sum was obtained.

The thieves also made away with a bundle containing a new suit of clothes which Mr. Kaplin had purchased in Tomah in the morning.

Indigestion Remedy Free

To any victim of indigestion the offer is made that if he or she will send name and address, a free sample of a remedy that is daily curing indigestion will be sent. This remedy is Dr. Caldwell's Syrup Pepsin. Instead of taking the advice of your friends, or using lozenges, peppermints and such things, write for this free sample and see what that will do for you. There is no remedy that has been more successful in the cure of indigestion, sick headache, heartburn, etc., than this grand laxative tonic, because instead of being simply a breath perfume it goes to the root of the trouble, which is poor bowel movement, and cures that. Once the bowels are relieved the stomach has a better chance to do its work. Thousands in the past have accepted the offer of a free sample and later became steady users of Syrup Pepsin. All that Dr. Caldwell desires is that you allow him to prove to you, at his own expense, that his remedy will do as claimed. When you have used the sample and are convinced, you can buy a further supply of your druggist at fifty cents and one dollar a bottle, just as others are doing who once sent for a free sample. You will learn to abandon "dyspepsia cures" for indigestion and cathartic pills and salts for constipation, for Dr. Caldwell's Syrup Pepsin is a permanent cure, while these are but temporary reliefs. Here is a mild, pleasant, non-gripping remedy that can be given to a child with perfect safety. In fact, it is especially adapted to children's ills. Read the many letters of recommendation that users have written for Syrup Pepsin, then try it yourself and you will see that these claims are justified. Thousands of the best American families have Dr. Caldwell's Syrup Pepsin constantly in the house.

Dr. W. B. Caldwell, Monticello, Ill.
Dear Sir:—I was highly pleased with the sample sent me and wish other people who have stomach trouble would know about it. I should be pleased to distribute samples to others who are suffering with it.

Your letter and sample at hand. Thought I would answer and tell you that it is the thing I have been looking for. I find it to be the best medicine I have ever used. I am going to get my third bottle this week as I would not be without it. I give it to my children all the time and it acts like magic, and will never be without it. I am thankful to you for it.—MRS. MARY BELFORD, 1719 Coke St., Louisville, Ky.

Pot and Pan Philosophy

All the soap and muscle in the world won't clean your pots and pans as they should be cleaned.

Ordinary washing of cooking utensils passes over whole hidden nests of little wigglers—commonly called germs.

Gold Dust is an antiseptic washing powder that not only removes the visible dirt and grease, but goes deep after every trace of germ life—sterilizes pots, pans, pails and kettles—leaving them clean, wholesome and safe.

Just shake a little Gold Dust in your dish-water and it will make your pots sparkle and span as when new and your tins shine like silver.

S.S.S. CURES OLD BLOOD TROUBLES

Contagious Blood Poison is at the bottom of a great many old blood troubles. The disease may have been contracted years ago and some treatment used that removed the outward symptoms and shut the virus up in the system to slumber in the blood, but it only awaited a favorable opportunity to break out in some form again.

Certain forms of catarrhal troubles, especially where the bones are affected, scrofulous affections, non-healing sores, ulcerated membranes, etc., are due to this specific poison. Perhaps many who are afflicted in this way are ignorant of the fact that the seeds of this mighty poison are still hidden in the blood. Like the deadly serpent, which is dangerous as long as the faintest spark of life is left to enable it to sink its poisonous fangs, this powerful disease will corrupt and defile while the least particle of its insidious virus remains in the blood.

The best time to get rid of Contagious Blood Poison is when the disease is first contracted, and before its virus so penetrates the blood as to cause ulcerated mouth and throat, copper-colored spots, falling hair, etc. Then of course the victim is saved much humiliation and suffering; but even after the poison has become established in the system it can be removed and a cure effected if the blood be thoroughly purified with S. S. S.

S. S. S. is the greatest of all blood purifiers. It possesses penetrating powers that enable it to go down into the blood, and remove the last trace of blood poison. It cures all blood troubles simply and solely because it removes the cause from the circulation.

Not only does S. S. S. cure Contagious Blood Poison when first contracted, but reaches it in any of its stages, even where the trouble has been inherited. S. S. S. is made entirely of roots, herbs and barks, and does not contain the slightest trace of mineral in any form. You cannot rid of your old blood trouble if you will take S. S. S. and allow it to purify the blood. Book on the blood and any medical advice free.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

Some eight years ago I was inoculated with poison by a nurse who infected my babe with blood taint. I was covered with sores and ulcers from head to foot. No language can express my feelings of woe during these long years. I was advised by friends who had seen wonderful cures made by it, to try S. S. S. We got some and I improved from the start, and a complete and perfect cure was the result. S. S. S. is the only blood remedy which reaches desperate cases of old blood troubles.

FREE BREAKFAST FOR EVERYBODY

The Ralston Purina company, one of the largest cereal houses in the country, is just inaugurating a unique plan of distribution, whereby every home in La Crosse will be presented with a free breakfast for five people. Sixty active school boys will be employed to make the distribution. Each will carry large checker-board satchels, containing 48 samples of Ralston Breakfast food, each sample large enough to make a breakfast for five persons.

The Ralston Purina company, manufacturers of Ralston Breakfast Food, are not only making this gratuitous distribution of breakfasts, but are teaching the school boys the principles of merchandising and paying them a beautiful set of genuine Brazilian beetle cuff links and stick pin mounted in green gold setting. These beetles are from the jungles of South America and are highly prized by the natives of that country.

Before each boy starts out to earn his beetle set, he is given a thorough instruction on the unusual merits of Ralston Breakfast Food. He is shown how Ralston Breakfast Food is made of whole hard winter wheat and has the wheat color and natural wheat flavor, with all the nourishment left in. He is shown how economical and nutritious Ralston is. He is shown where one 15 cent package will make 50 appetizing dishes.

If any family fails to get one of these Ralston Breakfast Food samples, it is due to an oversight and we recommend that they call on their local grocer, who has just received a fresh supply of Ralston Breakfast Food and a lot of these samples.

For two or three years my hair had been falling out and getting quite thin, until the top of my head was entirely bald. About four months ago I commenced using Sage and Sulphur. I shall keep on using it a while longer, as I notice a constant improvement.

IN FIELD MEET

Third Year of Meet Is Expected to Be the Most Successful Ever Held Here

Saturday morning at the fair grounds, the grade school field meet will be held under the auspices of the High School Athletic association. This is the third year that the meet has been given, and from present indications it will be the best one so far. All the schools are taking a lot of interest in the affair, all the candidates are training hard and some of the former records are sure to be broken. Ribbons will be given the winners of the first three places, and a banner is offered to the school getting the largest number of points, it becoming the permanent property of the school that wins it twice. In former years there has been a great deal of good material out, some of which has made good on the high school track team and if the same is true this time, there will be many new candidates at the high school next season. Good records have also been made, and if the day is good a good contest will be seen, even though it is but a grade school meet. The first events will be run off at 9 o'clock sharp.

NOTES OF THE MINNY LEAGUE

Today the team opens at Duluth for a series of three games, and may the rabbit's feet regain their marvelous charm.

Merry McCrone, last year covering first base for Duluth, is burning up the New England league according to New Bedford papers. He is hitting near the .300 mark and is fielding in faultless style.

Catcher Mueller is still with Brooklyn, but is not working regularly. Dahlen has improved Mueller's batting considerably.

Duluth has a new catcher by the name of Peterson, secured from "up in the country somewhere." He seems to have the goods and throws with a good peg to second.

The three La Crosse errors in the game Wednesday were all made on difficult chances, and it wouldn't have required much imagination to score them all as hits according to the Superior Telegram. Caldwell almost had Kuehn's bad leave to first base, Kuehn received McGraw's fly on a rapid run, and McCulloch's grounder was going some when it sifted through Ward. It now appears that one Outcasts' pitcher was pounded rather hard.

Some people have as much faith in weather reports as they have in patent medicine testimonials.

An Ohio man recently married for the seventeenth time. He evidently has a corner on the affinity market.

Dukelet's Bunch Hits in the Sixth and Wins Good Game by Score of 6 to 5

SUPERIOR, Wis., June 3.—Yesterday's game was played in the twilight on account of the races. Superior bunched five singles with two passes, a wild pitch and a stolen base in the sixth and earned enough runs to win the game. Currie was hit hard in the first, but kept the bingles well scattered after that. Both teams gave their pitchers brilliant support. Score:

Superior	6	10	27	11	2

Two base hits—Zalusky, McCarty 2, McGraw, Kuehn, Connell. Sacrifice hit—McGraw. Stolen bases—Wais, Kourick, Clemens, Young, Connell. Double plays—Caldwell to McCulloch; Currie to Caldwell to Kourick. Struck out—By Currie 7, by Young 5. Base on balls—Off Currie 5, off Young 6. Umpire—McDermott.

Duluth 1; Winona 0

DULUTH, Minn., June 3.—Bailies and Dauss engaged in a pitchers' battle yesterday and neither side was able to score until the final minute of the contest, when Duluth pushed over the winning run, and the only one of the game. Both hurlers traveled the grueling pace at about the same gait.

In the ninth inning, Darby O'Brien pounded out the only extra-base hit of the game, a double, and he scored on a prettily worked squeeze play, winning the game after one was out. The official score:

RED WING, Minn., June 3.—Red Wing pounded out Pitcher Desmond's release in one frame and clouted the succeeding pitchers, McNeill and Johnson, for a total of 18 hits, defeating Rochester, 15 to 1. "Big Chief" Roy, Red Wing's red skinned hurler, pitched a strong game, holding the visitors to ten scattered hits and one run. The game was featured by Black's hitting and a fast double play by Kelly and Gritz in the first inning. Red Wing played a snappy fielding game. By taking two of the three games of the present series the Red Wing team has created a great rivalry between the two towns, and the next clash at Rochester will doubtless be witnessed by large crowds. The attendance yesterday reached the 700 mark. The score:

EAU CLAIRE, Wis., June 3.—Wausau got after McShane in the second yesterday for three runs on hits and bad judgment by the pitchers in throwing to bases, and in the third, when he got into a muddle, Worman took his place and held the visitors safe. Dunbar and his teammates blew up in the fourth, when four runs came across the pan, tying up the game, and clouting in the fifth and eighth brought in four more. Sensational catches in the infield by Callahan and Carter and Augur's bad umpiring featured the game. Score:

BAT NELSON PICKS JOHNSON TO WIN

CHICAGO, June 3.—"If everything is up and up, I think Jack Johnson will be returned the winner." This was the remark made today by Battling Nelson, the former lightweight champion, who arrived here from Washington, where he finished a thirteen weeks' theatrical tour and incidentally called on Speaker Cannon and President Taft. The battler says he expects to meet Ad Wolgast in September. If Wolgast refuses to meet him Nelson says he will fight the next best man whom the public demands. Nelson will remain here to celebrate his 28th birthday among his relatives at Hegelkack.

POP ANSON BROKE; LOOKS SOXWARD

CHICAGO, June 2.—"No, I'm not a member of the 'down and out club,'" said "Pop" Anson. "I'm broke, that's all. I'm not worrying either. When a man's broke he hasn't time to worry. He has to hustle. That's what I'm going to do." The last piece of property owned by the once manager of the Chicago National league team was levied on yesterday under foreclosure proceedings. It was the house in which he has lived for 16 years.

Pop couldn't meet notes for \$6,800. Things have broken bad for the man who led his "Colts" to six pennants and a trip around the world. The \$300,000 he had when he quit baseball has melted away. Over \$30,000 is said to have been dropped in his billiard venture. Then his park, where his semi-professional club played, was taken away.

Anson is said to be contemplating an adventure into vaudeville. He would also consider an offer to manage a major league ball team. "I never carried a rotten ball team around the country, anyhow," and Pop looked suggestively toward the South Side park. In his hand was a morning paper showing the White Sox nestling in Seventh place. "No, I'm not getting personal," he interjected.

RUSSEL BAILEY TO BECOME A PITCHER

Down in Milwaukee the bugs have discovered that Russ Bailey of Minn. league fame is about to be converted into a pitcher by McCloskey. Bailey has a fair knowledge of curves, a good wing and can handle the spit ball. Some of these days it is understood that Russ will pitch a game.

Yesterday Second Baseman Barry McCormick was sold to the Millers and Infielder Charles, bought from the Cincinnati, reported, McCloskey will make a thorough housecleaning and it is understood that the next man whose head will go is Dan McGan.

GOTCH WILL TAKE CHARGE OF EATING

CHICAGO, June 3.—Frank Gotch announced today that he would soon be in Jim Jeffries training camp at Rowdennan and take charge of the big fellow's diet. "When I get to Rowdennan I'll take complete charge of Jeffries' eating and drinking," said Gotch. "I do not mean to usurp anyone's position as head trainer, but will see that the big fellow has the proper training diet."

Gotch left today to spend a few days at his home at Humboldt, Iowa, and expects to be with Jeffries in ten days.

Grain Letter

CHICAGO, June 3.—There was hesitancy on the part of the wheat trade this morning due to the erratic market of yesterday when a liberal advance was established only to be more than lost at the close. The market started off somewhat irregular but some higher than it closed yesterday, the July selling at 92 5/8 to 93 3/8 in the first few minutes but trading was not heavy and all local offerings increased as the price advanced and this seemed to steady prices somewhat.

There was a moderate trade in corn at the opening, prominent houses buying both July and September and the market for a time showed considerable strength but later eased off some as offerings increased.

In oats trading was limited, the market dull and prices nominally steady and a little firmer, solely in keeping with the action of the other grain markets.

Early in the day there was very moderate offerings of products by long speculators and some by bears which caused an easier feeling to prevail for a time, but later on offerings appeared to dry up and this caused a reaction in values, the market becoming dull.

Close—There was not much trading in July wheat and it closed 1/4 lower; September off 1/2 cents and December down 5/8. Corn showed a little weakness at close, July 3/4 cent lower; September 12 lower and December off 7/8. Oats steady with fractional losses. Provisions closed weak.
